University of Wisconsin
Bachelor of Science in Sustainable Management
Fact Sheet

The Bachelor of Science in Sustainable Management gives students the leadership skills they need to bring sustainability initiatives to organizations of all kinds. Sustainability refers to a simple idea: meet the needs of today without compromising the resources of future generations.

As our global community continues to flourish, sustainability will play an increasingly larger role in business. Graduates of this program are equipped with the technical, environmental and business knowledge needed to tackle an economy where balancing the triple bottom line of profitability, people and planet is critical to a company’s success.

Administered exclusively online, the Bachelor of Science in Sustainable Management is designed for adult students who may be juggling work and family obligations while pursuing the higher education that will make them more marketable in today’s economy.

About the Degree

• This online degree provides students with the same accredited, first-class education, renowned faculty and rigorous standards that the University of Wisconsin is known for, and that employers highly regard.
• The bachelor’s curriculum was developed with input from business leaders, to ensure that students are ready to lead sustainable initiatives upon graduation.
• Subject areas include environmental studies, triple bottom line accounting and natural resource management.
• The bachelor's program consists of 21 required courses. Each course is three credits. There are no electives, and a Capstone course is typically taken during the final semester.
• This degree is being offered in partnership with four University of Wisconsin campuses: UW-Parkside, UW-River Falls, UW-Stout and UW-Superior.
• The bachelor's in Sustainable Management is ideal for students who have completed the first two years of general education credits toward a degree. Enrollees must have at least 60 college credits or an associate’s degree with a 2.0 grade point average. The ACT, SAT or other entrance exams, are not required.
• To be considered for admittance, students must submit an electronic admission application and a $44 application fee, along with their college and high school transcripts.

Enrollment for the Spring 2013 semester is underway. More information on this program can be found online at sustain.wisconsin.edu, or by phone at 877-UW-LEARN (877-895-3276).
